## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. In the Claims:

In claim 1, line 9, after "*than zero*," delete -- , -- (the second comma prior to "*regularly shaped*").

This Examiner's amendment is made under the Examiner's own authorization, since the meaning of the claim is clear and unambiguous even without comma, and the only Attorney assigned to the present application, Mr. John E. Holford, could not be reached at his phone number, 703 704 1794, for the whole week ending today.

### **ALLOWANCE**

3. Claims 1-21 are allowed.

### ***Reasons for Allowance***

4. The following is an examiner's statement of reasons for allowance:

Claim 1 is allowed for claiming an improvement of a target identification system in which the aperture of the lens limits a small cross-section of collimated central light

Art Unit: 2881

beam path for transmission of information along a central axis between a first coaxial spot on the target and a second coaxial spot on a central electro-optical element i.e., either a (central) detector or (central) illuminator, the improvement comprising: n additional electro-optical elements regularly spaced around the central element; and a faceted beam diverter to redirect each of the facet beam axis into a series of segments lying in the same axial plane with the central axis, such that the central and facet beam paths are combined to form a relay beam with a large cross-section  $n+1$  times the small cross-section, said improvement having not been anticipated or rendered obvious by any prior art of record.

Claims 2-20 are also allowed because of their dependencies, either directly or indirectly, upon claim 1.

Claim 21 is allowed for reciting a method of increasing the f-number of a lens by means of a series of improvement steps already recited in claim 1.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Communications***

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernard E Souw whose telephone number is 571-272-
